Tuesday, November 19th

Luncheon at Doubletree Little Rock

11:45 AM – 1:00 PM

Tuesday, December 17th

Holiday Party

Dust Bowl Lanes

4:30 PM – 6:30 PM

New ASAE Directories are here and you look great in print! If you haven't received your copy, email office@arksae.net

2024 Association Benchmarking Survey

At our August ELC meeting, the class learned from Kenny Hall and Rodney Baker and got a sneak peek at the 2024 Benchmarking Survey from Naylor.

You can find a copy of the report [here](#). It's full of great information on association membership!

Interested in ELC? Nominations for the 2025 Emerging Leaders Council will be out this month. Execs: Please be on the lookout if you are interested in joining or nominating someone for the [2024 ELC Class](#).

Associations at Risk: 2025 Tax Reform Implications

Associations and other nonprofits face the biggest legislative threat in more than 50 years.

Sweeping tax breaks established in the 2017 Tax Cuts and Jobs Act will expire in 2025. Bipartisan Congressional leaders have stated that – unlike in 2017 – next year’s tax package will be fully funded at an estimated cost of \$3-\$4 trillion. Influential legislators and policy think tanks have called for taxing ALL tax-exempt organizations across the board, applying the 21-percent corporate tax rate to ALL non-donation net revenue. Membership dues, sponsorships, investment income, and educational program revenue are only a few examples of what is at risk.

We must engage as a community now to help ensure this does not happen. Join ASAE public policy staff and nonprofit tax policy experts in this webinar as we examine the policy landscape, implications of harmful taxes, and how we can act now to advocate for our community.

[September 26th at 1:00 PM: Associations at Risk: 2025 Tax Reform Implications will be hosted on ASAE's new learning platform, ASAE Academy.](#) Registrants will receive instructions on how to log into ASAE Academy in mid-September for this program, as well as a reminder email the day before the program.

One Question Poll: What topics are you interested in hearing about from our speakers?

Members - Please take the one question poll

RFP: 2025 ASAE MONTHLY EVENTS

NonProfits and AI: Managing Legal and Other Risks

Generative artificial intelligence (“AI”) is ubiquitous. Even those most skeptical of AI almost certainly use AI as matter of routine, whether through the spell-check feature in Microsoft Word, the auto-correct feature in text messages, the auto-complete feature in various applications, web searches, closed-captioning, digital traffic maps, smart home devices, suggested responses on Gmail, Siri, and so forth.

At this point in time, it is not realistic to imagine a business where AI is not used in some form. Even so, nonprofit organizations should carefully weigh the benefits of AI against legal and reputational risks...[CONTINUE](#)
